Introduction Fees

Emperors' Club model introduction fees directly correlate to the quality of our model companions. Each model's respective introduction fee has been placed on her page and is symbolized by the number of diamonds on her page. Beginning with three diamonds at \$1,000 or £500 and escalating beyond \$2,100 or £1,050 at six diamonds, fees vary according to individual education, sophistication, and ambiance created by each of our models. Choosing from only the most impressive model companion candidates, you'll personally find that Emperors Club is, by far, the most selective social introduction service. Beauty, elegance, erudition, and educational standing / career accomplishments are preliminary decisive factors in hiring. Each model's character, personality, ability to create desirable atmosphere, interests, family background and career success must be deemed suitable. Initial rates have been established based on the above criteria. With time, promotion, if any, to higher category (ies) is considered and based upon our expanded knowledge of the model's character and the grace with which she handles public relations / interactions. It is advised to schedule your dates with our models in advance, as each model has place in her schedule for a select number of meetings per month due to her university / career commitments. National and International Travel arrangements require at least 48 hours notice and a minimum 55% deposit. We recognize the importance of personality connection, friendship and comfort level when traveling together / attending social events; hence, hourly introductions are offered to ensure confidence / value prior to committing to travel dates and social engagements with any specific model. Such preliminary meetings make for risk-free dating and travel experiences.

Day Rates (dawn to dawn) :
